

Let Mead Flow on Midgard

by Karl Donaldsson, 1997 CE

sung to the tune of "Let There Be Peace on Earth"

Let mead flow on Midgard, and let it begin with me
Let mead flow on Midgard, the mead that was meant to be
With Odin, All-Father, siblings all are we
Let me walk with my brother, while drinking merrily

Let mead begin with me, let this be the moment, now
Drinking deeply from Aðumla, the cosmic cow
To take each moment and live each moment inebriated-ly
Let mead flow on Midgard, and let it begin with me!
